# **Design Engineer (Entry Level)**

#### **FULL-TIME ROLE**

#### **POSITION OVERVIEW**

Caztek Engineering is an innovative Engineering and Product Development company. We develop products for a wide variety of industries including medical, aerospace, industrial, and consumer markets. We have a dynamic, creative, project-based environment, working on many cutting-edge and new product designs. As a Design Engineer, you will work alongside our experienced team of Industrial Designers, Engineers, Machinists and Product Fabricators to deliver exceptional designs, prototypes and products to our customers.

## **PRINCIPAL DUTIES & RESPONSIBILITIES**

- Design mechanical assemblies, parts, and systems for customer projects
- Create parts and assemblies using 3D CAD software.
- Create mechanical drawings, Bill of Materials information, and other documentation needed for project completion
- Evaluate prototype products and designs for possible refinement through assembly and testing
- Participate in and contribute to customer project reviews
- Directly contribute to the solutions provided to customers including ideation, design, and specifications
- Sourcing components and engineering research

## SUPERVISION RECEIVED

Reports to Director of Engineering

# SUPERVISION EXERCISED

None

## **QUALIFICATIONS & SKILLS**

#### **REQUIRED**

This position requires meeting work project deadlines set by others. Communication with supervisor or engineer on the job is essential. It also requires a signed employment and confidentiality agreement along with a background check.

## Education

- Completed or soon to be completed bachelor's degree in Mechanical Engineering or equivalent

## Experience

- 0-5 years of relevant experience
- Working with and proficient knowledge of SolidWorks
- Knowledge of principles, and procedures of Mechanical Engineering to include the design process from concept through manufacturing
- Demonstrated problem-solving skills
- Hands-on experience preferred
- Ability to work independently

## Other

- Ability to stand and work in a fabrication shop
- Ability to lift 50 lbs.
